DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 79, 100, 120, 149, 156, 159, 171, 174 and 176-180 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3, 9 and 12-12 of U.S. Patent No. 6,278,884 or claims 1-25 and 34 of U.S. Patent No. 6,681,120 or claims 42, 51-54, 104 and 106-109 of U.S. Patent No. 7,321,783. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-3, 9 and 12-12 of U.S. Patent No. 6,278,884 or claims 1-25 and 34 of U.S. Patent No. 6,681,120 or claims 42, 51-54, 104 and 106-109 of U.S. Patent No. 7,321,783 recite similar claimed subject matters, as specified in claims 79, 100, 120, 149, 156, 159, 171, 174 and 176-180 of the instant application, with various wordings except for limitations “satellite phone functionality” or “satellite phone”. Since satellite phone is known in the art at the time the invention was made; therefore, it would have been obvious to one skilled in the art to utilize “satellite phone” or “satellite phone functionality” in the apparatus as disclosed in claims, for the advantage of expanding the capability of the apparatus to various types of communication devices.

Pending dependent claims are rejected for being dependent upon independent claims 79, 100, 120, 149, 156, 159, 171, 174 and 176-180 that have been rejected.

Allowable Subject Matter

1. Claims 79-80, 82-98, 100-109, 111-114, 116-118, 120-122, 127, 131, 134, 136-137, 149, 156, 159-164, 167-169 and 171-182 would be allowable if rewritten or amended to overcome the nonstatutory double patenting rejection(s), set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter:

None of cited prior arts of record, neither alone nor in combination, teaches the apparatus or phone being configured as specified in claims.

Response to Arguments

Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.
